# WHAT IS VEGANUARY?

Our mission is to inspire and support people across the globe to try vegan for January and beyond! We work closely with businesses to **drive corporate change** and aim to create a global mass-movement championing compassionate food choices.

Veganuary celebrated its 10th campaign in 2023! What started with an idea around a kitchen table in York, UK has now become a powerful movement that inspires millions each year to change the way we eat to protect animals, the planet and our future.

More than three million people have officially taken part in our 31-day vegan pledge since we began. However, recent YouGov data suggests **9% of British adults have participated in Veganuary** at least once since we started in 2014. Based on the current population, this is approximately six million Brits alone!

Veganuary is a great free marketing tool that helps brands, retailers and restaurants launch and promote their vegan products during January.

Our aim is to connect veg-curious consumers generated by our campaign to brands that can provide the plant-based options they are looking for during January and beyond.

More UK brands and businesses than ever before supported Veganuary in 2023 and our logo could be seen across billboards in out-of-home advertising campaigns, social media, email marketing and in-store. Many businesses reported a significant increase in sales and customer engagement throughout the month.

In addition to driving large-scale change in the UK, we run **targeted campaigns in the US, India, Germany and Latin America**, as well as working with partners in several other countries to create a global campaign. The heart of our campaign is our 31-day vegan pledge, where participants receive daily emails providing all the resources and advice they need to make the transition to a plant-based diet.
